Dynamic Frontend Developer with a proven track record in leveraging ReactJS, NextJS, and Shopify to build captivating websites. With a year of hands-on experience, I am dedicated to creating powerful user experiences and driving business growth.

EXPERIENCE

Benfy
Full stack developer,chennai

2022 - present

- Successfully developed and delivered web applications and websites for a range of clients using React and Next.js. Including educational sectors, construction firms, and e-commerce businesses.
- Collaborated closely with designers and back-end teams to gather requirements, implement robust functionalities, and ensure seamless integration of features. This hands-on experience showcases my ability to translate client visions into functional, user-friendly digital experiences
- Ensured high-performance optimization by implementing techniques like caching, lazy loading, minification and image optimization , etc.
- Proficiently used Git version control to work on collaborative projects and streamline the development process.
